### GEN. JOHNSON ATTACKS ALIEN RADICALS IN U. S.

(International News Service)

LOS ANGELES, July 21.—General Hugh S. Johnson, national recovery administrator, today had trained his oratorical big guns on the alien radicals, charged by him with the present industrial unrest in the United States.

The administrator in a radio speech demanded that organized labor in the United States "run the subversive element out of its ranks like rats."

Johnson declared that he had been told that if all of the aliens in

the nation were deported there would be enough jobs for more than one-third of the unemployed. "I don't suggest such a move," Johnson said, "but I do suggest that any alien who pretends to lead an economic group of our people in the direction of strife and bloodshed has no place here and should no more be tolerated than an armed enemy under a foreign flag."

Not one iota of credit for settlement of the general strike in San Francisco did General Johnson take.

SAN FRANCISCO, July 21.—Storm clouds over the Pacific coast maritime strike situation lifted today.

In San Francisco, the powerful teamsters' union killed the last vestige of the general strike by voting to return to work unconditionally, without reservation. This means that, effective today, the teamsters will truck freight anywhere, including the waterfront.

With longshoremen and allied marine unions still on strike, the effect of the action of the teamsters was problematical. The belief was, however, that the teamsters will haul on and off the docks in complete disregard of the waterfront strike.

Severe Blow To Radicals

The action of the teamsters was construed as a severe blow to radical union leadership.

Up North, at the ports of Seattle and Portland, the situation was still touchy and fraught with ominous possibilities. Violence has occurred in Seattle and at Portland the Oregon National Guard is mobilized only fifteen miles from the waterfront, ready for any emergency.

Acting Gov. Frank F. Merriam announced he would not withdraw National Guardsmen from the San Francisco waterfront until Mayor

BISMARCK, N. D., July 21.—

Today was to determine the battle between the convicted Governor William Langer and the

acting governor, Ole H. Olson, who succeeded to the office when Langer was convicted in federal court of soliciting funds from

federal, as well as state employees, for political purposes.

Embattled farmers could not in-

000 and which turned out to be not

more than 500.

One of the farmers asked Olson, who is past 60, and who broke the virgin soil of his farm with oxen:

"Are you going to cooperate with

the special session of the legislature called by William Langer, or not?"

Let People Cool Down.

Olson answered:

"I cannot answer that question until the temper of the people has cooled down. If I call a special session now, the people of the state will insist I am afraid of impeachment and you all know me well enough to know that I will not quit under fire."

(International News Service)  
MINNEAPOLIS, July 21.—Threats of a general strike hovered over Minneapolis today after 68 men were shot and clubbed in rioting that broke out in the strike of union truck drivers. Miles Dunne, leader of the striking truck drivers, issued the call to all organized labor in the city for a general strike to take effect at once.

Taxicab drivers walked out in protest against yesterday's shooting.

Accompanying the general strike call issued by Dunne came the announcement from the strikers' steering committee that all deliveries of ice, milk and beer would be suspended today. Deliveries of these commodities had been permitted by the union since the strike began last Monday.

What response Dunne's plea will bring from other labor leaders remained problematical.

Dunne's call was designed to throw the city into a complete labor tie-up, it was announced.

Over 4,000 Guardsmen.

An army of 4,100 national guardsmen, armed for instant duty, was stationed in Minneapolis, today on charges of Gov. Floyd B. Olson following the rioting and shooting.

Martial law may be declared "at any time," Governor Olson said in a statement issued at midnight.

Police opened fire with shotguns when a mob of pickets yesterday afternoon attempted to stop a truck load of food moving away from a wholesale grocery under convoy of the officers.

The governor issued the following statement:

"The convoying of trucks represents the breaking of promises to the Rev. Francis Haas (industrial relations board member) and me. There was a truce declared until Saturday midnight. The blood of those who are wounded or dying is on the heads of those breaking that

(International News Service)  
NEW YORK, July 21.—Herbert Myers, wanted by federal authorities in Washington, D. C. for mail robbery and by the police in Richmond and Philadelphia for homicides died this morning of a bullet wound received when he resisted arrest a few days ago.

Myers who was known as the "Dillinger of the East" has led the life of a fugitive criminal for the past ten years.

In 1924 he escaped from the Maryland penitentiary where he was serving a ten year sentence for auto theft.

Accused Of Several Murders

Since that time he has roved the east being accused in several places of murders and robberies.

He was wanted in Washington for mail robbery of several months ago when a mail guard was shot and a sack of registered mail taken from a hand truck in the Union Station.

Detective Frank O'Neil shot him two days ago when he lunged at the officer with a knife.

Having been taken to the prison ward in Fordham hospital he showed little interest in recovering and refused to allow doctors to remove the bullet from his abdomen or to give him a blood transfusion, saying "let me die."

HARRISBURG, July 21.—For the second consecutive week, sales at the state liquor stores increased, the liquor control board reported today. Receipts for the week ending July 14 totaled \$597,450 as against \$583,257 for the previous period.

Sales during the latest part of June slumped to slightly less than \$563,000, virtually the lowest since the system was inaugurated last January. Total receipts to date were recorded as \$18,796,484.

I promise, I am all prepared to take over military control of the city at any time. That means martial law."

One of the strike pickets, John Belor, 49, is not expected to live. Adjutant General Ellard Welsh said one of the pickets had been killed, but his identity could not be learned.

A checkup today showed that of the 68 injured 15 pickets were treated in the strikers' headquarters hospital and rushed home before police could arrest them. The others were dressed in five hospitals and were being felled as soon as their condition allowed them to be moved.

Quiet Today.

Quiet settled over the war-torn strike front as the battalions of militiamen arrived here early today by train and fast motor trucks and encamped within the city and at the state fair ground.

Adjutant General Walsh summoned 3,000 guardsmen from Fort Ripley, Little Falls and nearby cities to supplement the force of 1,100 troops already on duty in the strike zone.

The rioting began when more than 200 strikers climbed upon a truck which was being convoyed by 25 police officers in the warehouse district.

A pitched battle ensued, with strikers using clubs, stones, fists and bottles against the police, who had opened fire with riot guns.

Scoring the action of police as "unwarranted and a breach of faith", the Rev. Haas, who has been in charge of peace negotiations in the strike, said that a settlement now may not be reached for several days.

Troops with glistening bayonets fixed to their rifles took over the market district immediately after the rioting calmed down.

The militiamen cleared the streets, and lines of guards were posted about the area. The strikers retreated.

After the fighting Gov. Olson hurried here from the capitol at St. Paul to survey the strike situation at close hand. His order for summoning troops was given to the adjutant general shortly afterward.

Adjutant General Walsh said that martial law was a possibility, but added that "it all depends on future developments and circumstances."

FEAR WEEK-END TOLL.  
Seeking to escape the confines of cities, thousands took to the highways today for rivers, lakes and beaches. Highway travel was expected to reach a new peak over the week-end. Unless precautions are taken the week-end automobile death toll and drownings were expected to be higher than those of preceding week-ends.

In the metropolitan areas last night, parks were filled with persons seeking relief and fresh air. There was little to be had, however, winds were conspicuous by their absence in Pittsburgh while at Philadelphia a warm southerly wind added to the misery.

William Armstrong, 60, was found dead from heat in his Philadelphia apartment. Mrs. Charlotte Opjur, 55, died from excessive heat in her Philadelphia home.

Columbus, O., faced man killing heat again after yesterday's high of 101. In Cincinnati the maximum was a burning 105 with one death reported.

Hot In Pittsburgh  
Pennsylvania faced more blistering heat after yesterday's 92 at Pittsburgh and prospects for a record squalling 98 before nightfall.

The century mark was expected to be cracked at Philadelphia. In Harrisburg the mercury was in the menacing 90's before noon yesterday, exceeding yesterday's maximum of 92 degrees.

Heat took a frightful toll of death and destruction of crops along the Atlantic coast. In New York two fatalities resulted from the sweltering temperature while a light breeze today was expected to check the mercury's rise to some extent. In Washington the weather bureau predicted 100 for today.

Connecticut crops wilted and thousands suffered as the heat wave continued its tenacious grip on New England. Two deaths were reported in Massachusetts and three in Connecticut, due to the oppressive heat and high humidity. The temperature in Massachusetts was expected to touch 90 today with humidity dropping to 74 from yesterday's peak of 93.

Only the Pacific coast escaped the burning heat. In Los Angeles yesterday the thermometer went no higher than 75. All along the coast the weather was mostly unchanged today.

# RECAPTURED PRISONER DIES OF HIS WOUNDS

## Herbert Myers Bullet Victim

Shot By New York Officer  
In Resisting Arrest  
Recently

## WANTED FOR MANY SERIOUS CRIMES

(BULLETIN)

(International News Service)  
NEW YORK, July 21.—Herbert Myers, wanted by federal authorities in Washington, D. C. for mail robbery and by the police in Richmond and Philadelphia for homicides died this morning of a bullet wound received when he resisted arrest a few days ago.

Myers who was known as the "Dillinger of the East" has led the life of a fugitive criminal for the past ten years.

In 1924 he escaped from the Maryland penitentiary where he was serving a ten year sentence for auto theft.

### Accused Of Several Murders

Since that time he has roved the east being accused in several places of murders and robberies.

He was wanted in Washington for a mail robbery of several months ago when a mail guard was shot and a sack of registered mail taken from a hand truck in the Union Station.

Detective Frank O'Neill shot him two days ago when he lunged at the officer with a knife.

Having been taken to the prison ward in Fordham hospital he showed little interest in recovering and refused to allow doctors to remove the bullet from his abdomen or to give him a blood transfusion, saying "let me die."

## Liquor Stores Sales Increase

(International News Service)  
HARRISBURG, July 21.—For the second consecutive week, sales at the state liquor stores increased, the liquor control board reported today. Receipts for the week ending July 14 totaled \$507,450 as against \$583,257 for the previous period.

Sales during the latter part of June slumped to slightly less than \$563,000, virtually the lowest since the system was inaugurated last January. Total receipts to date were recorded as \$18,796,484.

promise. I am all prepared to take over military control of the city at any time. That means martial law."

One of the strike pickets, John Belor, 49, is not expected to live. Adjutant General Ellard Walsh said one of the pickets had been killed, but his identity could not be learned.

A checkup today showed that of the 68 injured 18 pickets were treated in the strikers' headquarters hospital and rushed home before police could arrest them. The others were dressed in five hospitals and were being jailed as soon as their condition allowed them to be moved.

### Quiet Today.

Quiet settled over the war-torn strike front as the battalions of militiamen arrived here early today by train and fast motor trucks and encamped within the city and at the state fair ground.

Adjutant General Walsh summoned 3,000 guardsmen from Fort Ripley, Little Falls and nearby cities to supplement the force of 1,100 troops already on duty in the strike zone.

The rioting began when more than 200 strikers climbed upon a truck which was being convoyed by 25 police officers in the warehouse district.

A pitched battle ensued, with strikers using clubs, stones, fists and bottles against the police, who had opened fire with riot guns.

Scoring the action of police as "unwarranted and a breach of faith," the Rev. Haas, who has been in charge of peace negotiations in the strike, said that a settlement now may not be reached for several days.

Troops with glistening bayonets fixed to their rifles took over the market district immediately after the rioting calmed down.

The militiamen cleared the streets, and lines of guards were posted about the area. The strikers retreated.

After the fighting Gov. Olson hurried here from the capitol at St. Paul to survey the strike situation at close hand. His order for summoning troops was given to the adjutant general shortly afterward.

Adjutant General Walsh said that martial law was a possibility, but added that "it all depends on future developments and circumstances."

merous and a few deaths have been attributed to the torrid wave.

### Fear Week-End Toll.

Seeking to escape the confines of cities, thousands took to the highways today for rivers, lakes and beaches. Highway travel was expected to reach a new peak over the week-end. Unless precautions are taken the week-end automobile death toll and drownings were expected to be higher than those of preceding week-ends.

In the metropolitan areas last night, parks were filled with persons seeking relief and fresh air. There was little to be had, however, winds were conspicuous by their absence in Pittsburgh while at Philadelphia a warm southerly wind added to the misery.

William Armstrong, 60, was found dead from heat in his Philadelphia apartment. Mrs. Charlotte Oujur, 55, died from excessive heat in her Philadelphia home.

Six-year-old Betty Kissinger lost her life in the Tower City community swimming pool as she sought relief from the tortuous heat. She was the first drowning victim of the pool.

### Soaring In Pittsburgh.

Pittsburgh, July 21.—Boasted by a scorching sun and high humidity, the mercury hit 95 degrees in Pittsburgh at 12:30 this afternoon.

Its rise was rapid and weather forecasters predicted it would reach a peak of approximately 100 degrees for a new July 21 record about 4 p. m.

cury touched 104 and in Sheridan, Wyo., the thermometer registered a blistering 100.

The heat and drouth in Texas continued with costly crop losses and the temperature reaching 96 in Dallas. James E. Ferguson, spokesman for the governor, said that 20 Texas counties will be in the federal drouth area in a few days.

In Louisville, Ky., the heat today was more intense than it was yesterday when the thermometer recorded 94.

Columbus, O., faced man heat again after yesterday's high of 101. In Cincinnati the maximum was a burning 105 with one death reported.

### Hot In Pittsburgh

Pennsylvania faced more blistering heat after yesterday's 92 at Pittsburgh and prospects for a record equaling 96 before nightfall. The century mark was expected to be cracked at Philadelphia. In Harrisburg the mercury was in the menacing 90's before noon reaching yesterday's maximum of 92 degrees.

Heat took a frightful toll of death and destruction of crops along the Atlantic coast. In New York two fatalities resulted from the sweltering temperature while a light breeze today was expected to check the mercury's rise to some extent. In Washington the weather bureau predicted 100 for today.

Connecticut crops wilted and thousands suffered as the heat wave continued its tenacious grip on New England. Two deaths were reported in Massachusetts and three in Connecticut, due to the oppressive heat and high humidity. The temperature in Massachusetts was expected to touch 90 today with humidity dropping to 74 from yesterday's peak of 83.

Only the Pacific coast escaped the burning heat. In Los Angeles yesterday the thermometer went no higher than 75. All along the coast the weather was mostly unchanged today.

### Shot Through Heart

The frantic barking of the girl's two Irish setter dogs led the mother to the spot where her daughter's body lay.

Mrs. Breckinridge's screams brought Austin E. Carlin, a neighbor to the scene.

Carlin called the Bethesda, Md. police and rescue squad. A brief examination disclosed she had been shot through the heart, the single bullet wound ranging upward through her breast to her heart.

Mrs. Breckinridge told police it had been a custom with the girl to go out in the woods in the evening and practice with her rifle since she came home from school early in the summer.

Federal immigration authorities at San Francisco were checking the records of the men arrested with a view of instituting deportation proceedings.

Three of the national administration's personalities, Postmaster James A. Farley, United States Senator Robert F. Wagner of New York and General Hugh S. Johnson, NRA administrator and federal strike mediator, were today in the spotlight in the San Francisco area.

Senator Wagner came here from Portland, where he has been active in averting a general strike in port. Upon his arrival in San Francisco, he went into conference with President Roosevelt's national longshoremen's board.

General Johnson was expected back in San Francisco today from Los Angeles. He flew to that city yesterday afternoon to make a speech in the Hollywood bowl.

The gasoline embargo in Portland was lifted. Nineteen gasoline trucks delivered fuel to city service stations under police guard.

Fifteen miles from Portland, at Camp Withycombe, 1,000 Oregon National Guardsmen were on duty awaiting orders to move into the city on a moment's notice.

The Port of Seattle was more completely open today than at any time since the waterfront strike began following the routine of a mob of 1,000 strikers.

In San Francisco, meanwhile, life approached normal with theaters, stores, butcher shops and other places of business functioning normally.

the blistering sun up the capitol hill, finally was dismissed.

In the afternoon, despite the efforts of a Langer sergeant-at-arms of the senate, there were only 19 of the 49 state senators present, so the indications were that Langer had lost his battle.

On the house side, presided over by a woman speaker, Mrs. Minnie Craig, there was more than a quorum, but when the house sent a committee to the senate to suggest a joint session, at which the deposed Governor Langer was expected to bring in a message asking for the impeachment of Olson and others, the wall of the state prison were re-captured today at gunpoint. The third was surrounded in a wooded tract at Waldboro and his capture was expected shortly.

Allen Twitchell, 39, of Troy, Me. and Archie L'italien, 33, of Portland, were captured without a struggle in the woods at Waldboro, ten miles from the prison here.

Funeral services will take place Monday, July 23, at 2:30 p. m. from the residence, 916 Winslow avenue, with Dr. S. B. Copeland officiating. Interment will be made in Grace-land cemetery.

### GENERAL JOHNSON ATTACKS ALIEN RADICALS IN U. S.

(Continued From Page One)

In fact he declared that he deserved no such credit that it belonged to the California and San Francisco leaders.

The extremities to which the general strike went the NRA head declared could not be adequately described.

### Minority Rule

He said, "when you have to go to a strike committee to get permission to have a bottle of milk for the baby you may know how fully the public has been submitted by a little group with a special interest, and I care not whether that group be of large or little importance or whether they be rich or poor. It is minority rule. It is dictatorship. It is tyranny and not to be tolerated for one moment by this free people."

Continuing his attack on alien radicals the speaker declared:

"What our people have not to understand is that there is a far more effective weapon against their right than guns or gas, and that is economic strangulation. If a foreigner walked down the street with a machine gun to enforce an anti-social demand we should know exactly what to do with him. But if he comes in forcing influences such as you have repudiated on the coast we are loath to act. Let's rid ourselves of them. Let us not recognize or have anything to do with a man in a responsible economic position that would not be eligible to a responsible American political position, that would do the trick."

### SHOWN MOTION PICTURES

Boys of Camp Fred L. Rentz were shown several reels of motion picture film by Jack Boyles, mentor of the Phalanx fraternity, last night. The films were shown in the Katy Lodge.

## THIS HOT WEATHER

IN the midst of complaints about hot and humid weather, a noted physician has seen fit to remark with considerable veracity that these tepid summer days are healthy even if they are uncomfortable.

As a rule, in such weather, fewer persons are ill and there are fewer cases of communicable diseases—all because people stay out of doors as much as possible. Give a look to these words of his and you'll find much wisdom in them:

"The weather is keeping people out of doors as much as possible. It is keeping the pores of their bodies open. They are drinking lots of water. Poisons are being eliminated from their bodies through the pores. Sunshine is building up their bodies."

After all, there's no season to compare with the good old summer-time.

## THE SENSIBLE VACATION

The caption above has a double meaning. A vacation is sensible, and there is such a thing as a sensible vacation, as opposed to a foolish one.

A vacation is sensible because it gets one out of a rut and promotes happiness and efficiency throughout the remainder of the year. Hygeia aptly says the wise vacation does not always mean a complete forgetting of one's job or business, but it should mean that worry is left behind.

One of life's little jokes is that people think they are "all fed up" on their tasks, when the truth is work is more interesting than sport. So the vacationist won't hurt himself to think a little bit about the pleasure side of his job.

Visiting relatives offers one of the most reasonable-priced vacations. There are favors the visitors can do for the hosts, or they can return the compliment in kind.

Camping in a tent, or the use of moderate-priced cabins which some mountain communities provide appeals to families which have some skill in the ways of Robinson Crusoe and his Man Friday.

Once the kind of shelter desired has been decided upon, pure water is the prime essential of a location. Next in importance is to be near an adequate food supply.

It is not healthful to live wholly upon bread, eggs, and coffee, as many vacationists do. Buy fresh vegetables and fruits, and eat plenty of those highly-flavored Pennsylvania berries.

Available to local motorists are the many spots unsurpassed in natural beauty among the roads leading east, north and south. These old trails hold out attractive opportunities for the popular and inexpensive vacation so much sought by those in need of a rest and change.

## NOT SO CONFIDENT

From certain activities in high Democratic circles, it is evident that party officials are not as confident of the outcome of the congressional elections as they try to make the public think they are.

Among the straws which may indicate the existence of even a certain amount of apprehension is the western speaking tour by National Chairman Farley, and the recent speech by Senator Lewis, chairman of the senatorial campaign committee.

Reports of serious opposition among western farmers to certain parts of the New Deal have been reaching Washington in increasing numbers. These farmers claim they have been benefited but little by the recovery program, and they want something done about it.

It will be one of the tasks of Mr. Farley to show them that they are wrong, that they have been helped and that still greater benefits await them provided they send Democrats to represent them in congress. The party chairman, who officially is postmaster general, is credited with being a shrewd politician, but he may have a greater job before him than he thinks.

Senator Lewis' speech undoubtedly was an attempt to dispel the fears of business men. He asserted that the president was not averse to criticism and that he would listen to and accept suggestions for changes in present legislation that might "best serve the general uses of legitimate business in the promotion of general prosperity."

It is clear that party strategists want to take no undue risks. They recognize that the Republicans have a large supply of ammunition on hand; that they, in fact, are much better prepared than they had been given credit for being, and that every available Democratic weapon must be made use of if the party hopes to hold its ground.

## PRECISELY AS SCHEDULED

Compared with the first six months of 1933, the same period in 1934 shows in Harrisburg a 160 per cent increase in arrests for liquor law violations; 38.2 per cent increase in drunken driving and 10.6 per cent in arrests of drunks.

Anybody surprised at this? Scarcely. It is precisely the thing that persons of common sense knew would result from prohibition repeal. There may be some surprise among the younger persons who knew nothing of conditions in pre-prohibition times, but to all whose memory can bridge the gap, conditions are rapidly returning to normal.

There is one exception, however. In pre-pro days the present number of automobiles was not normal. The age of speed was not so intensified. Booze is making the motor car a more likely agent of death. Thus prohibition's repeal bids fair not only to restore all the evils of the old days but add a frightful new one.—Harrisburg Patriot.

The other day a friend asked me if I could stand some frank criticism. . . . I said I could. . . . But as I said it I had a crinkly feeling at the back of my neck and I knew I wasn't telling the truth.

I repined myself of a dog growling in his throat at a strange noise outside the house.

## FOLLOW YOUR DOCTOR'S ADVICE

You hear a medical expert talk on a subject which you know to be of great importance to you.

Instruction and advice is given as to what you should do to overcome certain habits which are harmful to you.

He recommends treatment which should cure or stay the progress of your ailment.

You are told you must follow these instructions to insure good health.

You go home firmly resolved to carry out the course.

At first you adhere to rules rigidly, but you finally make no effort to follow the schedule.

It's rather foolish to continue the use of things which are harmful to you.

Generally speaking, when a man is prosperous it is due to his own smartness; when he flops it's the work of the rotten luck that has been sticking to him like a cockle.

At first you adhere to rules rigidly, but you finally make no effort to follow the schedule.

It's rather foolish to continue the use of things which are harmful to you.

Nearly every man of middle age who has had occasion to undergo physical examination has learned from the examiner of certain precautions he should take to prevent serious results.

It is likely you have had such an experience.

Have you carried out the given instructions?

Or are you taking the chance of creating some permanent affliction?

"Aha," said the chief clerk. "I'm glad to notice that you're arriving punctually now, Mr. Scrooge."

"Yes, Sir. I've bought a parrot."

"A parrot? What on earth for? I told you to get an alarm clock."

"Yes; I did. But after a day or two I got used to it and it didn't wake me. So I got the parrot. And now when I go to bed I fix the alarm clock and put the parrot's cage on top of it. What that bird says when the alarm clock goes off would wake up anybody."

Another way to keep from growing old is to have another smoke when you are reading yourself to sleep.

It is reported that the burglars' union is perfecting a code which will guarantee them time and a half for night work. This is fair.

A new comet has just appeared in the southern hemisphere. The great comet of 1858 presaged the birth of Theodore Roosevelt. Wonder what one portends? We give advance notice of it in this way so that people can be ready to dodge it if it comes their way.

Quite a bit of talk has been heard about such an affair as has been going on out in San Francisco may be the starting of a civil war some time. And war has been started for less than what has been going on the Pacific coast.

Another way to keep from growing old is to have another smoke when you are reading yourself to sleep.

### THIS HOT WEATHER

IN the midst of complaints about hot and humid weather, a noted physician has seen fit to remark with considerable veracity that these tepid summer days are healthy even if they are uncomfortable.

As a rule, in such weather, fewer persons are ill and there are fewer cases of communicable diseases—all because people stay out of doors as much as possible. Give a look to these words of his and you'll find much wisdom in them:

"The weather is keeping people out of doors as much as possible. It is keeping the pores of their bodies open. They are drinking lots of water. Poisons are being eliminated from their bodies through the pores. Sunshine is building up their bodies."

After all, there's no season to compare with the good old summer-time.

### THE SENSIBLE VACATION

The caption above has a double meaning. A vacation is sensible, and there is such a thing as a sensible vacation, as opposed to a foolish one.

A vacation is sensible because it gets one out of a rut and promotes happiness and efficiency throughout the remainder of the year.

Hygeia aptly says the wise vacation does not always mean a complete forgetting of one's job or business, but it should mean that worry is left behind.

One of life's little jokes is that people think they are "all fed up" on their tasks, when the truth is work is more interesting than sport. So the vacationist won't hurt himself to think a little bit about the pleasant side of his job.

Visiting relatives offers one of the most reasonable-priced vacations. There are favors the visitors can do for the hosts, or they can return the compliment in kind.

Camping in a tent, or the use of moderate-priced cabins which some mountain communities provide appeals to families which have some skill in the ways of Robinson Crusoe and his Man Friday.

Once the kind of shelter desired has been decided upon, pure water is the prime essential of a location. Next in importance is to be near an adequate food supply.

It is not healthful to live wholly upon bread, eggs, and coffee, as many vacationists do. Buy fresh vegetables and fruits, and eat plenty of those highly-flavored Pennsylvania berries.

Available to local motorists are the many spots unsurpassed in natural beauty among the roads leading east, north and south. These old trails hold out attractive opportunities for the popular and inexpensive vacation so much sought by those in need of a rest and change.

### NOT SO CONFIDENT

From certain activities in high Democratic circles, it is evident that party officials are not as confident of the outcome of the congressional elections as they try to make the public think they are.

Among the straws which may indicate the existence of even a certain amount of apprehension in the western speaking tour by National Chairman Farley, and the recent speech by Senator Lewis, chairman of the senatorial campaign committee.

Reports of serious opposition among western farmers to certain parts of the New Deal have been reaching Washington in increasing numbers. These farmers claim they have been benefited but little by the recovery program, and they want something done about it.

It will be one of the tasks of Mr. Farley to show them that they are wrong, that they have been helped and that still greater benefits await them provided they send Democrats to represent them in Congress. The party chairman, who officially is postmaster general, is credited with being a shrewd politician, but he may have a greater job before him than he thinks.

Senator Lewis' speech undoubtedly was an attempt to dispel the fears of business men. ## Suggestion That Employees Take Plant Is Puzzler

### Employers Answer To Strike Has Manorville Plant Em- ployees Up In Air

(International News Service) MANORVILLE, Pa., July 21.—Striking employees of the National Mirror Specialty Company saw little merit today in their employer's suggestion that they take over the company's management.

Consequently, 50 workers who walked out last Monday demanding wages of 30 cents an hour and an eight-hour day, gave every indication of returning to their posts Monday. W. E. Fields, chairman of the strike committee, claims Leon H. Samuels, plant owner, has been violating a temporary code by working his men 10 hours daily at 14 cents an hour.

Samuels startled the workers when they carried their protests to him. He bluntly suggested that they take over the plant and he would become their employee.

Fields claims his group is willing to abide by a decision of the labor board considering the dispute and probably will return to work Monday.

## Suggestion That Employes Take Plant Is Puzzler

### Employers Answer To Strike Has Manor Plant Employes Up In Air

(International News Service) MANORVILLE, Pa., July 21.—Striking employees of the National Mirror Specialty Company saw little merit today in their employer's suggestion that they take over the company's management.

Consequently, 50 workers who walked out last Monday demanding wages of 30 cents an hour and an eight-hour day, gave every indication of returning to their posts Monday. W. E. Fields, chairman of the strike committee, claims Leon H. Samuels, plant owner, has been violating a temporary code by working his men 10 hours daily at 14 cents an hour.

Samuels started the workers when they carried their protests to him. He bluntly suggested that they take over the plant and he would become their employee.

Fields claims his group is willing to abide by a decision of the labor board considering the dispute and probably will return to work Monday.

## Annual Picnic Held By Local O. E. S. Chapter

Fifty Participate In Annual Outing At Cascade Park On Friday Evening

ELLWOOD CITY, July 21.—One of the most pleasing events of the summer season was the annual picnic of the Ellwood Chapter of the O. E. S. Friday evening at Cascade Park. Fifty participated in the affair.

Addressing the Commonwealth club, Farley entered a lengthy and vigorous defense of the recovery agencies instituted by the Roosevelt administration, and asserted, in effect, that had it not been for them the country would have been plunged into chaos.

A delicious turkish dinner at 6:30 inaugurated the events of the evening. Later a program of sports, games and contests was carried out. Many prizes were awarded as a result.

The affair was indeed a social success. Something to come forward with something to say or to cease criticizing.

(International News Service)

LOS ANGELES, July 21.—The so-called "Babylonian revel" which he assertedly attended at the apartment of June DeLong on April 26 was a pretty tame affair in the first place and a frame-up in the second. Dave Allen, head of the Central Casting bureau, on trial here on a morals charge, was on record as testifying today.

The man who controls the destinies of some 17,000 movie extras, also repeatedly and vehemently declared that it was all a "frameup".

Gloria Marsh, jointly accused with Allen, also testified as to the party, and joined Allen in his claims of a frameup.

Miss Marsh is scheduled to return to the witness stand when court resumes Monday, and face a grilling cross-examination.

Says Testimony False.

Thus far the flaming-haired actress has declared that the majority of the testimony given by June DeLong, chief state's witness and one of the asserted principals in the alleged "Babylonian revel" was false.

Miss Marsh denied ever being unclad in Miss DeLong's apartment.

She denied that anything improper ever occurred in the apartment while she was present.

Allen on the stand contended that he was lured to Miss DeLong's apartment under the pretense that a woman was there who would tell him of a threat against his life.

Allen also denied that Miss Marsh was ever unclad while he was in the DeLong apartment, although he charged that Miss DeLong wore only a scant kimono.

As court recessed over the weekend, Harry Adams, former screen extra, who will be a rebuttal witness against Allen and Miss Marsh, asked for police protection. He claimed he had been threatened if he persisted in testifying.

Congratulations To Labor.  
Earth's Biggest Tunnel.  
The Rex Comes In.  
A Market For Milk.  
By ARTHUR BRISBANE

written in their faces and in their hands, wearing the plainest old-fashioned dresses, down to the ground, big at the waist, were waiting for daughters or sons that had been spending the money abroad. One important man was there, strutting, with waving hair, holding his chin high, making everybody else feel like a worm.

There was the man with a single eyeglass without even a string tied to it. Men in a hurry, and usually indifferent, would stop, bow and obey when he looked at them first out of the single eyeglass, then out of the uncovered eye, and spoke brief, rumbling words.

**GOOD NEWS** for everybody, especially organized union labor. The general strike, aimed not at employers but at the public, has been promptly crushed in San Francisco. Outside agitators, alleged to have promoted the strike against the public rather than against employers, picked the wrong city for their operation. San Francisco men are not patient when told that a private organization will take the place of legal government and tell citizens what they may and may not do.

**SAN FRANCISCO** seems to have disposed of its "general strike" much more quickly than was done in England or anywhere else. The citizens are to be congratulated on the refusal to compromise or "discuss" anything so long as the laws of the nation, state and city were defied.

AND UNION labor is to be congratulated, as it will doubtless learn from Mr. Green, head of the American Federation of Labor, on the fact that it has learned an important lesson, namely, that the 123,000,000 people of the United States must run this country, not any group that decides to replace the government.

Union labor will recall with gratitude Mr. Green's emphatic statement that the American Federation of Labor had not authorized the strike, did not approve it, and had nothing to do with starting it.

**WORKINGMEN** AND employers in the United States will be interested to know that in France, among all the 40,000,000 Frenchmen, there are only nine hundred and fifty-seven on strike. Of these, seven hundred are bricklayers in Paris, twenty-seven are Paris wood-workers, asking for higher wages, and two hundred and thirty are employees of a woolen mill at Roubaix, who object to a cut in wages. They call that "labor trouble" in France.

**KING GEORGE** pressed a "golden switch", and the world's biggest tunnel under the water was opened, with a million citizens of Liverpool cheering.

This champion tunnel, under the River Mersey, connects Liverpool with Birkenhead, with four lanes for traffic, and cost forty million dollars. The King named it "Queenway" in honor of Queen Mary, and made a good speech, praising "the will and power of men", able to build a tunnel for many lines of traffic, running below "tidal water, bearing ships of the world".

**HAVING FINISHED** the marvelous Mersey Tunnel, the British, remembering Napoleon's eternal question, "What did you do next day?" will now proceed to build a waterway that will make it possible for boats to go from "the wash" in the North Sea, southward across England to Bristol Channel.

The United States, which spends billions these days as though they were small change, might try some canal building, for instance, from the Great Lakes to the Atlantic, all on United States territory, without need of asking permission or co-operation from Canada, and another canal through the Mississippi valley, connecting Chicago and all the Great Lakes cities by water with the Gulf of Mexico, to Asia through the Panama canal, and all the rest of earthly creation.

**MAN UNTIL** recently was a migratory animal, forever moving in search of new pastures, new game supplies, new kinds of men, easier to kill. He is still most interesting when travel excitement is upon him.

You would have liked to see Mussolini's big Italian steamer, "Red", slide up to her dock in New York, with many heavy growls from the engines.

The Italian sailor is a fine type, with deep chest, powerful neck, quick movement, and the officers from the captain down are capable and courageous.

**THE GIANT SHIP** moved up to the dock quietly, as well controlled as a baby carriage stopping in an apartment hallway.

There was a wild rush by the waiting crowd to the side of the ship, especially toward the steerage and tourist class. Hands waved frantically, messages were shouted, there were some Fascist salutes from the dock, more old-fashioned hand-waving.

AT THE SHORE end of the first-class gangplank a small Italian boy about two years old was crying "mamma, mamma". In a moment mamma, first off the ship, dashed down the plank, knelt on the boards, lifted the baby in her arms, talked to him, understood every word that he was trying to say.

There she knelt, and there she talked, holding up the line of passengers, anxious to get off, but not objecting. She did not see her parents or anybody else until she had finished talking to the baby.

The crowd was interesting. Old women, with lives of hard work

## Allen Contends Charges Framed

Gesting Bureau Head Says  
"No Babylonian Revel"  
Occurred

ACTRESS ALSO  
DENIES CHARGE

(International News Service)  
LOS ANGELES, July 21.—The so-called "Babylonian revel" which he assertedly attended at the apartment of June DeLong on April 26 was a pretty tame affair in the first place and a frame-up in the second, Dave Allen, head of the Central Casting bureau, on trial here on a morals charge, was on record as testifying today.

The man who controls the destinies of some 17,000 movie extras, also repeatedly and vehemently declared that it was all a "frameup".

Gloria Marsh, jointly accused with Allen, also testified as to the party and joined Allen in his claims of a frameup.

Miss Marsh is scheduled to return to the witness stand when court resumes Monday, and face a grilling cross-examination.

Says Testimony False.

Thus far the flaming-haired actress has declared that the majority of the testimony given by June DeLong, chief state's witness and one of the asserted principals in the alleged "Babylonian revel" was false.

Miss Marsh denied ever being unclad in Miss DeLong's apartment.

She denied that anything improper ever occurred in the apartment while she was present.

Allen on the stand contended that he was lured to Miss DeLong's apartment under the pretense that a woman was there who would tell him of a threat against his life.

Allen also denied that Miss Marsh was ever unclad while he was in the DeLong apartment, although he charged that Miss DeLong wore only a scant kimono.

As court recessed over the week-end, Harry Adams, former screen extra, who will be a rebuttal witness against Allen and Miss Marsh, asked for police protection. He claimed he had been threatened if he persisted in testifying.

## Water Pageant Closes Period At Y. W. Camp

Parents And Friends Gather For  
Event Last Night At  
Camp East Brook

A water pageant interested a gathering of a couple hundred parents and friends of the campers Friday evening at Camp East Brook of the Y. W. C. A. It was the final event of the 12-day camping period and proved a most refreshing entertainment.

The pageant concerned Mr. and Mrs. World (Jean Miller and Helene Edgar) who came to ask the Y. W. C. A. instructor (Louise Sheaffer) concerning the advantages of swimming lessons in the Y. pool.

The instructor called Neptune (Jerry Flick) up from the bottom of the sea and asked his opinion. Neptune in turn referred Mr. and Mrs. World to Dave Jones (Jane Davis) who had just completed writing history of the development of swimming.

As Neptune on his throne reads the history demonstrations are given by the campers as follows: dog paddle, Jessie McCrea, Marilyn Pearce, Peggy Hill, Betty Hogue, Barbara Blair; with inflated goatskins; Audrey Bridenbaugh and Orra Jane Snyder; water play; Jean Waddington and Caroline Kinter; Paton and William Crutchfield strokes; Katie Veach, Jane Davis, Barbara Blair, Mary Strauss and Carol Henderson; swimming on back; Peggy Hill, Caroline Blair, Jessie McCrea, Isabel Douglas and Audrey Bridenbaugh; Roman style; Joan Thompson, Jane Davis; breast and side strokes; Jane Davis, Alice Flick, Caroline Blair, Joan Thompson, Isabel Douglas; Japanese; Jeannette Kuklin, Marilyn Pearce; American crawl; Joan Thompson, Carolyn and Barbara Blair; back crawl; Katie Veach, Jane Davis and Jean Waddington. Demonstrations of plunging and diving games and stunts followed.

Awards were then presented to beginners and advanced swimmers who had passed their requirements and junior life saving awards will be presented soon to Jerry Flick and Katie Veach and renewals to Isabel Douglas, Jane Davis and Jean Waddington.

## Voice Identification Holds Two As Robbery Suspects

(International News Service)  
PITTSBURGH, July 21.—Identified by their voices in the robbery and cruel blinding of a Greek bowling alley proprietor, Nick Deiembe, 22, and John Arendash 23, both of Homestead were held for court today on charges of holdup and robbery, pointing firearms and larceny of an automobile.

George Stratigos, blinded when ground glass was thrown into his eyes, heard the youths speak along with four other men yesterday and identified them as his assailants.

Today in police court he remarked:

"I wish that I could see. I would be more satisfied, but yesterday I identified the voices."

The youths were held jointly on

three charges of robbery in connection with the holdup of two gasoline stations and that of Stratigos.

Deiembe also was held on five additional charges of robbery in connection with a series of restaurant stickups.

Mike Adendash 22, brother of John, whose automobile was used on several ventures according to police was held pending further investigation.

GIANTS UPSET

By GENE LAWRENCE  
International News Service Sports  
Writer.

NEW YORK, July 21.—Perhaps the air outside of New York doesn't agree with them, or it might be that they just don't like long train rides, but whatever the reason, the New York Yankees today had blown a big chance to cut a full game into the lead of the Detroit Tigers and, instead, they are still two games back in second place.

Less than two weeks ago Joe McCarthy's athletes left New York predicting a triumphant jaunt through the west as a direct answer to those "upstarts" in Detroit who had some idea they could win the American league flag.

**Yanks-Tigers Lose.**

Since they have left New York they have played ten games and lost three, and with the exception of the series they dropped in Detroit, the opposition hasn't been so tough.

However, the Yankees hit a new depth yesterday dropping a 13-in-7 decision, 7-6, to the last place Chicago White Sox.

With Detroit losing to the Philadelphia Athletics, 5-4, the New Yorkers had a small chance to capitalize on that outcome, but they missed it and in the course of a long drawn out pennant fight it is such close ones that sometimes determine a championship.

Jimmy Foxx hit his 29th homer of the year in the eighth inning to give the Athletics their victory over the Yanks and also put him ahead in the major league homer derby.

Piling up four runs on four hits off Rube Walberg in the second inning the Cleveland Indians defeated the Boston Red Sox, 5-3.

**Knot's** effective relief pitching when the Senators threatened in the ninth, filling the bases, enabled the St. Louis Browns to beat the Washington club, 7-4.

**Giants Win Game.**

The New York Giants stretched their National league lead to three and one-half games as they won a hectic, free slugging game 11-5 from the Cincinnati Reds. It was their second straight over the last place club.

Tex Carleton pitched a nice five-hit game against the Boston Braves to win for the St. Louis Cardinals, 8 to 1. Wally Berger wallowed his 21st four-bagger in the seventh.

After playing one inning the Chicago Cubs' game with the Phillies was called off because of rain.

**Elder A. C. Will  
Play Flats Team**

Elder A. C. baseball team, newly organized for the rest of the season will play the strong Clifton Flats team at the Flats field at 3:30 p. m. Sunday afternoon. The Flats team is undefeated in 22 straight starts. The Elders hope to snap the winning streak of the South Siders.

The following Elder A. C. players should report for the game: Shafte, Shaffer, Brooks, Davis, Joe Quinn, Chet Shuler, Heidish, Reynolds, Russ Houk, Ed Lamm, Paul Coulter and D. Quinn.

### St. Andrews Wins First-Half Title Following Protest

#### Commissioners Award Game To St. Andrews And Title Goes With It

A bombshell was exploded in the Lawrence County Softball association meeting held at the "Y" last night, and as a result of the blast the St. Andrews team takes the first half title in the National league and the Radiators are forced to accept second place.

Here is the bombshell that caused the din: The East Side Merchants admitted using a player who was ineligible against the St. Andrews team in the game that the East Side Merchants played at Gaston park and won. The board of commissioners, Mike Babovsky, Dennis and Earl Riley, cast ballots on the protest and the St. Andrews team won the decision. There was considerable discussion about this protest, but the commissioners had no other alternative than to award the game to the St. Andrews team.

The St. Andrews and Saints were tied up at the end of the first half and were waiting for a playoff series when the bombshell struck with full force.

Altogether there were six protests acted upon at the meeting. The East Side Merchants were awarded the game played at the Radiator field on which a protest was entered. The commissioners in this case upheld the umpire's decision.

The Cunningham and West Side Merchants game was ordered to be played over. The Unions lost the protest entered against the Scarazzos victory at Canyon field. The East Side Merchants and West Side Merchants were ordered to play the protest game over.

### State Approves Three Referees

#### McMahon, Jones And Chip Will Referee Bouts Here . . . . .

#### INDUSTRIAL HEADS MAKE RESERVATIONS

It was announced today that the State Athletic commission which governs all boxing and wrestling in the state of Pennsylvania has authorized the committees in charge of the Police department benefit boxing show here August 10 to use one or three referees when the amateur boxing show is conducted.

Dr. McClelland, the commissioner for boxing in Western Pennsylvania announced that either Tom McMahon, Tommy Jones or George Chip, or all of them, would be satisfactory to the boxing commission. As a result all three have been engaged. Their assignments will be made the night of the contests.

The authorization from Dr. McClelland has left only the appointment of a medical examiner and this will prove no task here. It is probable that three or four local physicians will be requested to examine the boxers who are to engage in the contests.

Chief of Police Haven yesterday personally received requests from prominent citizens to reserve seats for some of the most prominent people of the city who want to help the benefit bouts to a successful conclusion.

When the money is expended for equipment it will be owned by the city of New Castle and it will not be necessary for council to appropriate money for the equipment. In the main every piece of equipment bought will be for the benefit of the citizens at large.

The state law concerning boxing bouts will be carried out to the letter.

A public speaking outfit will be erected so that Mayor Mayne who will announce the names of the boxers and call out the decisions can be heard by all the fans.

## Indians Gaining On Yanks-Tigers

Cleveland Beat Boston For Fourth Straight As Yanks And Tigers Lose

### GIANTS UPSET

REDS 11 TO 5

By GENE LAWRENCE  
International News Service Sports Writer.

NEW YORK, July 21.—Perhaps the air outside of New York doesn't agree with them, or it might be that they just don't like long train rides, but whatever the reason, the New York Yankees today had blown a big chance to cut a full game into the lead of the Detroit Tigers and, instead, they are still two games back in second place.

Less than two weeks ago Joe McCarthy's athletes left New York predicting a triumphant jaunt through the west as a direct answer to those "upstarts" in Detroit who had some idea they could win the American league flag.

#### Yanks-Tigers Lose.

Since they have left New York they have played ten games and lost six, and with the exception of the series they dropped in Detroit, the opposition hasn't been so tough.

However, the Yankees hit a new depth yesterday dropping a 13-in-7 decision, 7-6, to the last place Chicago White Sox.

With Detroit losing to the Philadelphia Athletics, 5-4, the New Yorkers had a swell chance to capitalize on that outcome, but they missed it and in the course of a long drawn out pennant fight it is such close ones that sometimes determine a championship.

Jimmy Foxx hit his 29th homer of the year in the eighth inning to give the Athletics their victory over the Yanks and also put him ahead in the major league homer derby.

Piling up four runs on four hits off Rube Walberg in the second inning the Cleveland Indians defeated the Boston Red Sox, 5-3.

Knott's effective relief pitching when the Senators threatened in the ninth, filling the bases, enabled the St. Louis Browns to beat the Washington club 7-4.

#### Giants Win Game.

The New York Giants stretched their National league lead to three and one-half games as they won a hectic, free slugging game 11-5 from the Cincinnati Reds. It was their second straight over the last place club.

Tex Carleton pitched a nice five-hit game against the Boston Braves to win for the St. Louis Cardinals, 5 to 1. Wally Berger walked his 21st four-bagger in the seventh.

After playing one inning the Chicago Cubs' game with the Phillies was called off because of rain.

Elder A. C. Will Play Flats Team

Elder A. C. baseball team, newly organized for the rest of the season will play the strong Clifton Flats team at the Flats field at 3:30 p.m. Sunday afternoon. The Flats team is undefeated in 22 straight starts. The Elders hope to snap the winning streak of the South Sliders.

The following Elder A. C. players should report for the game: Shafit, Shaffer, Brooks, Davis, Joe Quinn, Chet Shuler, Heidish, Reynolds, Russ Houk, Ed Lamm, Paul Coulter and D. Quinn.

### INDUSTRIAL HEADS MAKE RESERVATIONS

It was announced today that the State Athletic commission which governs all boxing and wrestling in the state of Pennsylvania has authorized the committees in charge of the Police department benefit boxing show here August 10 to use one or three referees when the amateur boxing show is conducted.

Dr. McClelland, the commissioner for boxing in Western Pennsylvania announced that either Tom McMahon, Tommy Jones or George Chip or all of them, would be satisfactory to the boxing commission. As a result all three have been engaged. Their assignments will be made the night of the contests.

The authorization from Dr. McClelland had only the appointment of a medical examiner and this will prove no task here. It is probable that three or four local physicians will be requested to examine the boxers who are to engage in the contests.

Chief of Police Haven yesterday personally received requests from prominent citizens to reserve seats for some of the most prominent people of the city who want to help the benefit bouts to a successful conclusion.

When the money is expended for equipment it will be owned by the city of New Castle and it will not be necessary for council to appropriate money for the equipment. In the main every piece of equipment bought will be for the benefit of the citizens at large.

A public speaking outfit will be erected so that Mayor Mayne who will announce the names of the boxers and call out the decisions can be heard by all the fans.

written in their faces and in their hands, wearing the plainest old-fashioned dresses, down to the ground, big at the waist, were waiting for daughters or sons that had been spending the money abroad. One important man was there, strutting, with waving hair, holding his chin high, making everybody else feel like a worm.

There was the man with a single eyeglass without even a string tied to it. Men in a hurry, and usually indifferent, would stop, bow and obey when he looked at them first out of the single eyeglass, then out of the uncovered eye, and spoke brief, rumbling words.

GOOD NEWS for everybody, especially organized union labor. The general strike, aimed not at employers but at the public, has been promptly crushed in San Francisco. Outside agitators, alleged to have promoted the strike against the public rather than against employers, picked the wrong city for their operation. San Francisco men are not patient when told that private organizations will take the place of legal government and tell citizens what they may and may not do.

SAN FRANCISCO seems to have disposed of its "general strike" much more quickly than was done in England or anywhere else. The citizens are to be congratulated on the refusal to compromise or "discuss" anything so long as the laws of the nation, state and city were defied.

AND UNION labor is to be congratulated, as it will doubtless learn from Mr. Green, head of the American Federation of Labor, on the fact that it has learned an important lesson, namely, that the 123,000,000 people of the United States must run this country, not any group that decides to replace the government.

Union labor will recall with gratitude Mr. Green's emphatic statement that the American Federation of Labor had not authorized the strike, did not approve it, and had nothing to do with starting it.

WORKINGMEN AND employers in the United States will be interested to know that in France, among all the 40,000,000 Frenchmen, there are only nine hundred and fifty-seven on strike. Of these, seven hundred are bricklayers in Paris, twenty-seven are Paris wood-workers, asking for higher wages, and two hundred and thirty are employees of a woolen mill at Roubaix, who object to a cut in wages. They call that "labor trouble" in France.

KING GEORGE pressed a "golden switch", and the world's biggest tunnel under the water was opened, with a million citizens of Liverpool cheering.

This champion tunnel, under the River Mersey, connects Liverpool with Birkenhead, with four lanes for traffic, and cost forty million dollars. The King named it "Queenway" in honor of Queen Mary, and made a good speech, praising "the will and power of men", able to build a tunnel for many lines of traffic, running below "tidal water, bearing ships of the world".

HAVING FINISHED the marvelous Mersey Tunnel, the British, remembering Napoleon's eternal question, "What did you do next day?" will now proceed to build a waterway that will make it possible for boats to go from "the wash" in the North Sea, southward across England to Bristol Channel.

The United States, which spends billions these days as though they were small change, might try some canal building; for instance, from the Great Lakes to the Atlantic, all on United States territory, without need of asking permission or co-operation from Canada, and another canal through the Mississippi valley, connecting Chicago and all the Great Lakes cities by water with the Gulf of Mexico, to Asia through the Panama canal, and all the rest of earthly creation.

MAN UNTIL recently was a migratory animal, forever moving in search of new pastures, new game supplies, new kinds of men, easier to kill. He is still most interesting when travel excitement is upon him.

You would have liked to see Mussolini's big Italian steamer, "Red", slide up to her dock in New York with many heavy growls from the engines.

The Italian sailor is a fine type, with deep chest, powerful neck, quick movement, and the officers from the captain down are capable and courageous.

THE GIANT SHIP moved up to the dock quietly, as well controlled as a baby carriage stopping in an apartment hallway.

There was a wild rush by the waiting crowd to the side of the ship, especially toward the steerage and tourist class. Hands waved frantically, messages were shouted, there were some Fascist salutes from the dock, more old-fashioned hand-waving.

AT THE SHORE end of the first-class gangplank a small Italian boy about two years old was crying "mamma, mamma". In a moment mamma, first off the ship, dashed down the plank, knelt on the boards, lifted the baby in her arms, talked to him, understood every word that he was trying to say.

There she knelt, and there she talked, holding up the line of passengers, anxious to get off, but not objecting. She did not see her parents or anybody else until she had finished talking to the baby.

The crowd was interesting. Old women, with lives of hard work

GIANTS UPSET

NEW YORK, July 21.—Perhaps the air outside of New York doesn't agree with them, or it might be that they just don't like long train rides, but whatever the reason, the New York Yankees today had blown a big chance to cut a full game into the lead of the Detroit Tigers and, instead, they are still two games back in second place.

Less than two weeks ago Joe McCarthy's athletes left New York predicting a triumphant jaunt through the west as a direct answer to those "upstarts" in Detroit who had some idea they could win the American league flag.

**Yanks-Tigers Lose.**

Since they have left New York they have played ten games and lost six, and with the exception of the series they dropped in Detroit, the opposition hasn't been so tough.

However, the Yankees hit a new depth yesterday dropping a 13-in-7 decision, 7-6, to the last place Chicago White Sox.

With Detroit losing to the Philadelphia Athletics, 5-4, the New Yorkers had a small chance to capitalize on that outcome, but they missed it and in the course of a long drawn out pennant fight it is such close ones that sometimes determine a championship.

Jimmy Foxx hit his 29th homer of the year in the eighth inning to give the Athletics their victory over the Yanks and also put him ahead in the major league home derby.

Piling up four runs on four hits off Rube Walberg in the second inning the Cleveland Indians defeated the Boston Red Sox, 5-3.

**Knot's effective relief** pitching when the Senators threatened in the ninth, filling the bases, enabled the St. Louis Browns to beat the Washington club, 7-4.

**Giants Win Game.**

The New York Giants stretched their National league lead to three and one-half games as they won a hectic, free-slugging game 11-5 from the Cincinnati Reds. It was their second straight over the last place club.

Tex Carleton pitched a nice five-game against the Boston Braves to win for the St. Louis Cardinals, 5 to 1. Wally Berger walked his 21st four-bagger in the seventh.

After playing one inning the Chicago Cubs' game with the Phillies was called off because of rain.

**Elder A. C. Will  
Play Flats Team**

Elder A. C. baseball team, newly organized for the rest of the season will play the strong Clifton Flats team at the Flats field at 3:30 p. m. Sunday afternoon. The Flats team is undefeated in 22 straight starts. The Elders hope to snap the winning streak of the South Siders.

The following Elder A. C. players should report for the game: Shafie, Shaffer, Brooks, Davis, Joe Quinn, Chet Shuler, Heidish, Reynolds, Russ Houk, Ed Laram, Paul Coulter and D. Quinn.

# Boy Scouts Hold Court Of Honor

Indian Village At Camp  
Scene Of Ceremony; Advancemnts Are Made

(Special To The News)

CAMP JOHN M. PHILLIPS July 21.—The first Court of Honor at Camp Phillips during the 1934 season was held last night in the beautiful Indian Village site and was witnessed by a good sized group of visitors and council scouts who had motored out to be on hand. Many of them spent some time around the camp, looking over the new trees planted this year and talking with their sons. Shortly after dusk the campers and leaders assembled for the session. The fire was lit by the four wind invocation the flame leaping up in the wood without being touched by a match or electric spark.

Songs were then sung, and the camp leaders introduced these men having had the instruction of the campers in hand during the past week. Rev. A. M. Stump, chairman of the county court of honor, then assembled his court—Ralph Davis, Messrs. Merrilees, Carroll, Howard Miles and Horton and the award session started.

## Advancement Announced

Advancement from tenderfoot to second class rank were given to Jim Merrilees, V-18; Valentine Kish, New Castle 2 and R. Willison of Ellwood City V-8. Eldred Urby of V-18 was advanced from second to first class rank.

Merit badges awarded were to Bob Cole, camping and handicraft; John Manos, basketry; Bob Young, path finding and camping; Hunt Davis, first aid and backpack; Joe Smith, basketry and camping and scoutmaster A. L. Howard canoeing.

Rev. Stump then spoke of his delight in the out-of-doors and the good he got from simply coming out to camp and watching the wild life, and he recommended to his hearers to know nature more intimately.

The executive spoke of the scope of Scouting and the way in which the over two million members of the movement in forty odd nations of the world were banded together and reminded his hearers of the great Jamboree to be held in Washington

next year in commemoration of the silver jubilee of Scouting. Ralph Davis led in several songs and spoke of the plans for camping to come. All the assembly then recited the Scoutmaster's Benediction and filed up the trail to the campgrounds. First call and taps sounded afterward, and another Camp Phillips court of honor was history.

The troop 55 New Bedford V-1 again took the banner for the twenty-four hour record with V-37 and Ellwood 2 group pressing them closely only one point behind.

Tomorrow morning the rest of the swimming and lifesaving tryouts will be completed. Out of five boys who could not swim, three are "ready in as beginners" and the swimmer and junior and senior Red Cross lifesavers are also going into their final work. The week has been full of activity and the scouts' picnic today should attract a large number of visitors to the camp who are interested in the future development of Lawrence County's scout rendezvous for all scouts and scouts.

## Steam Cleaning Of Stone Progresses

'Waterproof' Post Office Stone In About Month; Building Employees 50

While the "steam-cleaning" of the stone at the new post office on the diamond is proceeding in full public view these days, inside the building more workmen are pouring the finish concrete floor on the main floor and doing numerous other jobs upstairs and down. The project is employing over 50 now.

The actual "waterproofing" process of the outside stone starts when the cleaning is finished. That will be in about a month.

The completed second floor corridors of the building now allow one to more easily visualize what the completed building, in the upper floor will look like. Rooms are to be provided there for a civil service auditorium, where civil service applicants may take tests; a postal inspector's office; the U. S. Internal Revenue office and the national bank examiners of this district, now located in other buildings throughout town.

Occupying much of the second floor space will be the workroom of the letter carriers.

The entire downstairs, of course, will house the post office.

Collections by County Treasurer William O. Pitts on Thursday amounted to \$4,715.58, distributed as follows: County, \$2,945.98; state, \$296.61; poor, \$472.98. There were indications at the office of the treasurer today that the rush to pay while the discount of five per cent is allowed is now on. The office was well filled with taxpayers during a greater part of the day.

D. D. Mullett has filed a suit at the Prothonotary's office against Kay, Richards and Company, stock brokers, to collect \$937.50. Mullett claims that he gave a verbal order to Martin Matthews, a member of the firm at the Erie office, to sell one hundred shares of Southern Railway stock at 34 1/4. Through some oversight the order was not executed. The stock went down and when it was sold, it had dropped to 25 and one-eighth. Mullett claims the loss was due to failure of the firm to execute his order and brings the suit to recover his loss.

Under a contract which Engineer T. A. Gilkey has with the county commissioners for county work, Mr. Gilkey has presented a bill to County Controller R. C. McCaslin for \$50 to apply on the proposed Croton Avenue viaduct. Mr. Gilkey has collected \$800 for the preliminary work which he does for the county.

Controversy over the bill has been carried on for some time, and it may take a court decision to decide the matter. It is said that the advocates of the Croton Avenue viaduct have not yet given up, but will endeavor to have the matter taken up by another grand jury.

While Mr. Gilkey did not have a specific contract for the preparation of plans for the viaduct, he is claiming his commission, or the \$500 for which the bill is presented, under the general contract which he has with the county commissioners for work which he does for the county. Controversy over the bill has been carried on for some time, and it may take a court decision to decide the matter. SLIPPERY ROCK, Pa., July 21.—Slippery Rock will be pushed off the William Penn highway map if plans being considered in Harrisburg are carried out.

State Secretary of Highways Samuel S. Lewis reported that surveys are routing the road from Butler to Oil City and Franklin around Slippery Rock will be made in a plan to cut five miles from the distance.

The rerouting distance-saving plan provinces for turning the highway at the Stone House, south of Slippery Rock, into a limestone road through Kiesters to Adams Corners, south of Forrestville.

He said he had been there, formerly located a garage of employees of the good old days caused him to park there. He could see Jimmy, Barton, Eddie, Bowers, Jimmy, Lumbie and Abbott that had as drivers in 1919. And the girls of Cascade Park were there, too. # Boy Scouts Hold Court Of Honor

Indian Village At Camp Scene Of Ceremony; Advancements Are Made

(Special To The News)

CAMP JOHN M. PHILLIPS, July 21.—The first Court of Honor at Camp Phillips during the 1934 season was held last night in the beautiful Indian Village site and was witnessed by a good sized group of visitors and council scouts who had motored out to be on hand. Many of them spent some time around the camp, looking over the new trees planted this year and talking with their sons. Shortly after dusk the campers and leaders assembled for the session. The fire was lit by the four wind invocation, the flame leaping up in the wood without being touched by a match or electric spark.

Songs were then sung, and the camp leaders introduced, these men having had the instruction of the campers in hand during the past week. Rev. A. M. Stump, chairman of the county court of honor, then assembled his court—Ralph Davis, Messrs. Merrilees, Carroll, Howard Miles and Horton and the award session started.

## Advancement Announced

Advancement from tenderfoot to second class rank were given to Jim Merrilees, V-18, Valentine Kish, New Castle 2 and R. Willison of Ellwood City V-8. Eldred Urby of V-18 was advanced from second to first class rank.

Merit badges awarded were to Bob Cole, camping and handicraft; John Manos, basketry; Bob Young, path-finding and camping; Hunt Davis, first aid and basketry; Joe Smith, basketry and camping and scouting; Master A. L. Howard canoeing.

Rev. Stump then spoke of his delight in the out-of-doors and the good he got from simply coming out to camp and watching the wild life, and he recommended to his hearers to know nature more intimately. The executive spoke of the scope of Scouting and the way in which the over two million members of the movement in forty odd nations of the world were banded together and reminded his hearers of the great Jamboree to be held in Washington.

next year in commemoration of the silver jubilee of Scouting. Ralph Davis led in several songs and spoke of the plans for camping to come. All the assembly then repeat the "Scoutmaster's Benediction" and filed up the trail to the campgrounds. First call and tape sounded soon afterward, and another Camp Phillips court of honor was history.

The troop 55 New Bedford V-1 again took the banner for the twenty-four hour record with V-37 and Ellwood 2 group pressing them closely only one point behind.

Tomorrow morning the rest of the swimming and lifesaving tryouts will be completed. Out of five boys who could not swim, three are "swimming in as beginners" and the swimmer and junior and senior Red Cross lifesavers are also going into their final work. The week has been full of activity and the scouts' picnic today should attract a large number of visitors to the camp who are interested in the future development of Lawrence County's scout rendezvous for all scouts and scouts.

Additional testimony was taken before Judge E. L. Hildebrand yesterday in the case of Frank Racco against the Actina Standard Engineering Company of Ellwood City. The case is one in which Racco is trying to collect from the engineering company for alleged damage done to his property by vibrations of machinery and the operation of a crane used in breaking up scrap iron.

Collections by County Treasurer William O. Pitts on Thursday amounted to \$4,715.88 distributed as follows: County, \$2,945.98; state, \$295.61; poor, \$1,472.99. There were indications at the office of the treasurer today that the rush to pay while the discount of five per cent is allowed is now on. The office was well filled with taxpayers during a greater part of the day.

D. D. Mullett has filed a suit at the Prothonotary's office against Key Railroads and Company, stock brokers, to collect \$957.50. Mullett claims that he gave a verbal order to Marlin Matthews, a member of the firm at the Erie office, to sell one hundred shares of Southern Railway stock at \$4 1/2. Through some oversight the order was not executed. The stock went down and when it was sold, it had dropped to 25 and one-eighth. Mullett claims the loss was due to failure of the firm to execute his order and brings the suit to recover his loss.

Under a contract which Engineer T. A. Gilkey has with the county commissioners for county work, Mr. Gilkey has presented a bill to County Controller R. C. McCaslin for \$500 to apply on the proposed Croton Avenue viaduct. Mr. Gilkey has collected \$800 for the preliminary work.

Mayor Charles B. Mayne will deliver an address during the afternoon. Other speakers include: Professor Dominic Russo of Pittsburgh, Ermanno Carletti of Pittsburgh, the Rev. Fr. Albert Farina, assistant pastor of the St. Vitus church, and the Rev. Fr. Scbastian Ippolito of Mahonington.

An athletic program will also be one of the features of the day. A fireworks display and a boce game between the Umberto Primo team and that of the Christopher Columbus have been arranged.

THE "STEAM CLEANING OF STONE PROGRESSES"

Waterproof Post Office Stone In About Month; Building Employs 50

While the "steam-cleaning" of the stone at the new post office on the diamond is proceeding in full public view these days, inside the building more workmen are pouring the finish concrete floor on the main floor and doing numerous other jobs upstairs and down. The project is employing over 50 now.

The actual "waterproofing" process of the outside stone starts when the cleaning is finished. That will be about a month.

The completed second floor corridors of the building now allow one to more easily visualize what the completed building, in the upper floor will look like. Rooms are to be provided there for a civil service auditorium, where civil service applicants may take tests; a postal inspector's office; the U. S. army and navy, the U. S. internal revenue office and the national bank examiners of this district, now located in other buildings throughout town.

Occupying much of the second floor space will be the workroom of the letter carriers.

The entire downstairs, of course, will house the post office.
